

Kids for Saving Earth

Take a Garbage Walk

We know a garbage walk doesn't sound exciting, but actually the kids love it. Get outside; enjoy the Earth's beauty; make it look even better; and get some exercise.

1. Make sure to have bags, gloves, and maybe tongs to pick up "yucky" stuff.
2. You might want to give a reward for the most garbage collected.
3. Be sure to recycle what you can.
4. Email Kids for Saving Earth a copy of your garbage list. We will publish it online.
5. Place filled-in copies of this "Garbage Walk" form on your classroom walls.
