

Hello Instructors,

Please help us "Get the Lead Out" of our planet's water. We have created a postcard that your students can send to governmental leaders of their choice. It explains the issue and asks these leaders for help.

There are two postcards per page to be printed on to card stock. Once you have printed them, cut them apart and have students write a personal request for help. Address the card on the right-hand side and add a first-class stamp.

If you would like more information about the issue of lead in fishing gear, check out this link.
