

What's in our

Garbage?

My dinner,
that's what!

The Great Garbage Challenge

Before you begin the challenge checkout Teaching Grownups to learn about this issue

- 1

- 3

Research all the things that can be recycled in your community.

Find out which materials your families are throwing away, which could be recycled.

Choose 3 ways; from the options below to fulfill the Great Garbage Challenge. I have:

taught grown ups about recycling, reusing, and composting by teaching them the Teaching Grown Ups program.

taught a younger class or community group about recycling.

asked our teacher to talk about recycling and waste reduction.

talked to our school food service about recycling in the school kitchen.

convinced our school to remind everyone each month to recycle.

written an article for our local paper about our recycling project.

discovered how a grocery store reduces waste.

taken the America Recycles Pledge.
