Wrap Green

There are lots of ways to wrap holiday and birthday packages in an Earth-friendly manner. Here are some simple suggestions.

1. Use old newspapers to wrap packages. You can add color by using colorful yarn or old ribbons. Save ribbons from year to year.
2. Make a reusable bag. Dig through your old fabric leftovers. Cut out the size bag you want. Instead of sewing the seams together, buy some iron-on tape to glue the seams together. Work with adults when you are using the iron.
3. Find those old scarves that are rarely used and wrap a present with them.
4. Save used wrapping bags and paper to reuse at least one time.
5. Decorate brown paper grocery bags and use them to wrap gifts.
