

Recycle This!

Recycling a single run of the Sunday New York Times would save 75,000 trees.

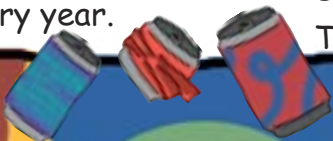

For every ton of recycled glass, one ton of natural resources are saved.

Americans use more than 17 million barrels of oil annually, enough to fuel 1.3 million cars.

Americans throw away more than \$700 million worth of aluminum cans every year.

Easy to recycle in your bins!

By working a little harder you can recycle the items below. Google to find locations or go to Earth 911.com

Plastic Bags: Recycle by gathering in bin and the dropping off at grocery or big box stores.

There are lots of types of hazardous waste you can drop off at your community drop off center including electronic waste.

Appliances can often be returned to the store you bought a new one from or you can easily find companies that will pick up for a fee.

Compost: Fruits, vegetables, used paper towels and napkins. Go to Compost Power at KidsforSavingEarth.org to learn more.

Google this by saying "how can I recycle this?"

- Batteries
- Cell phones
- Clothing
- Crayons
- Household chargers
- Power cords
