## Kids for Saving Earth

### Earth Inspector Checklist

#### Begin making your home healthier

#### Important Rules to follow before you begin your home inspection tour:

1. You **MUST** make the inspection with an adult
  2. Ask the adult to be sure the tops of the containers are tightly sealed
  3. Carefully read all labels, including the directions.
  4. **Do not** mix household products with each other!
  5. Keep all hazardous substances in original containers
  6. Some products that are unsafe for the Earth are necessary, like anti-freeze and oil for your car.
- Do Not dispose of this type of product in the trash, down drains or sewers.**
7. **Do** dispose of all hazardous waste at a hazardous waste collection center.
