Capitalize the word Earth

It's unbelievable!! No one seems to want to capitalize the word Earth. How can that be? At KSE, we looked it up in the dictionary. Sure enough! Earth is suppose to be capitalized. But everywhere we look, it isn't!! We capitalize our cities, states, countries, etc. But alas, we forget to capitalize the word Earth!

The point is---we are not being very respectful of the planet Earth in many ways. We don't take very good care of it. We trash it, we pollute the air, land and water and we forget to capitalize the name of our only home--the planet Earth. So KSE is asking you to tell everyone you know to capitalize the word Earth and stop polluting it. Click "Respect the Earth" to sign our petition. Just your first name, city, state, and school, then take the 4 easy steps below to help protect our Earth.
